

ABHISHEK HINGMIRE

Data Analyst | Python & SQL | BFSI Analytics | Business Intelligence | MIS Reporting
+91-8623921350 | abhishekhingmire2171@gmail.com | Mumbai, India | [LinkedIn](#) | [GitHub](#) | Available Immediately

PROFESSIONAL SUMMARY

Data Analyst with 3+ years of experience in **BFSI**, Fintech & Exchange data analytics, business intelligence **reporting**, and MIS **reporting** across SG Analytics and Webshield Solutions. Proficient in **Python**, **SQL**, and **Advanced Excel**, with hands-on experience in data validation, reconciliation, and **statistical analysis** to support business decision-making. Skilled in building **dashboards**, monitoring **KPI** performance, and delivering **business insights** for cross-functional stakeholders. Exposure to Machine Learning techniques including **Regression**, **Decision Trees**, and **NLP** for exploratory and predictive analysis.

PROFESSIONAL EXPERIENCE

Associate Analyst — BFSI, Fintech & Exchange Team <i>SG Analytics Pune, India Client Support & Financial Data Operations</i> - Analyzed structured financial and banking datasets using SQL and Python to identify reporting discrepancies, validation gaps, and workflow inconsistencies, improving data accuracy across the BFSI, Fintech & Exchange portfolio. - Executed financial data mapping, validation, and reconciliation across multiple reporting workflows, ensuring data integrity for downstream MIS and client reporting outputs. - Delivered operational MIS reports, KPI summaries, and workflow tracking dashboards that supported stakeholder decision-making across BFSI client engagements. - Applied trend and variance analysis to support forecasting discussions, and collaborated cross-functionally on root cause analysis (RCA) to reduce recurring reporting errors.	Nov 2024 – Present
Data Analyst — Excel & Power BI <i>Webshield Solutions Pune, India Technology & Data Solutions Firm</i> - Analyzed business datasets using SQL, Advanced Excel, and Power BI to uncover trends, reporting gaps, and actionable insights that informed strategic and operational decisions. - Designed and developed interactive Power BI dashboards and KPI scorecards, improving reporting visibility and enabling data-driven decision-making for business stakeholders. - Automated recurring reporting and data preparation workflows using Power Query and Excel automation, reducing manual effort and increasing reporting turnaround speed. - Partnered with business teams to translate MIS reporting requirements into structured Power BI and Excel-based reporting solutions.	Jul 2023 – Nov 2024

KEY PROJECTS

Synaptiqo — Adaptive Document Intelligence Platform <i>Tools: Python, FastAPI, PostgreSQL, Docker, Vector Database (Embeddings/Semantic Search), OCR</i> - Designed an end-to-end ETL pipeline to extract, validate, and classify structured information from unstructured documents, using Python and FastAPI with PostgreSQL schema design; built asynchronous worker pipelines with queue management, retry handling, and OCR-based extraction. - Built a human-in-the-loop feedback system that retrains the extraction model on reviewer corrections, addressing data quality issues in real-world messy data. - Integrated a vector database with embeddings to enable semantic search and retrieval, and containerized the application using Docker for deployment.
Sales & Finance Performance Report — Retail Company <i>Tools: Advanced Excel (Pivot Tables, Power Query, Advanced Formulas)</i> Built Excel-based sales and finance reporting dashboards using Pivot Tables and advanced formulas; performed financial data validation, reconciliation, and consistency checks across revenue and cost datasets to improve reporting accuracy.
Business Insights Dashboard — AtliQ Hardware <i>Tools: Power BI (DAX Measures, Calculated Columns), Advanced Excel, Power Query</i> Developed Power BI dashboards using DAX measures, calculated columns, and Power Query transformations; conducted variance, reconciliation, and trend analysis to generate business insights and improve financial reporting accuracy.

TECHNICAL SKILLS

Querying & Programming: SQL, MySQL (Joins, Subqueries, Aggregations, Window Functions), Python (Pandas, NumPy, Data Cleaning)
Machine Learning (Exposure): Regression, Decision Trees, NLP — applied for exploratory and predictive analysis
BI & Reporting Tools: Power BI (DAX Measures, Calculated Columns, KPI Dashboards , Semantic Models), Tableau, Google Looker Studio
Advanced Excel: Pivot Tables, Pivot Charts, Power Query, XLOOKUP/VLOOKUP, Advanced Formulas, Conditional Formatting
Data Analytics: Exploratory Data Analysis (EDA), Trend Analysis, Variance Analysis, Statistical Analysis , Financial Analysis, Data Validation, Data Reconciliation, Data Cleaning & Transformation
MIS & Operational Reporting: MIS Reports, KPI Tracking, Operational Analytics, Stakeholder Reporting , Forecasting Support, MTD/YTD/QTD Reporting , Reporting Automation
Business Intelligence: BI Development, Dashboard Development, Data Visualization , Business Insights Generation
Domain: BFSI, Fintech & Exchange — Financial Data Operations, Banking Domain Reporting

CERTIFICATIONS

Full Stack Data Science Cert. — Almabetter • 5-Star + Intermediate **SQL** Cert. — HackerRank • 4-Star **Python** Badge — HackerRank • Data Analyst Badge — Psylq

EDUCATION

Full Stack Data Science Certification — Almabetter | 2023 – 2024 Bachelor of Commerce (B.Com) — University of Mumbai | Jun 2023
